DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of the claims is that the prior art of record neither teaches nor suggests the inclusion of the limitation of "the second clamp being separate and distinct from the first clamp" (Claim 1, Lines 3-4). The closest prior art of record, Schwartz, Ott et al, and Bernstein taken as a whole, disclose a cross clamping device significantly as claimed, but do not teach or suggest the second clamp being separate and distinct from the first clamp. There is no teaching or suggestion, absent the applicant's own disclosure, to modify the fence system of any of Schwartz, Ott et al, and Bernstein to produce a cross clamping device having the aforementioned elemental features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
